Obtaining Software Updates

All Matrix Orbital GX Software updates are available at the support website located at :

<http://www.matrixorbital.ca/software/GX/>

Release notes:

2011-04-01 New drivers fully supporting windows7/vista/xp in 64/32 bit mode

Updated lcdstudio to support the new drivers.

Updated firmware to resolve possible standby/hibernate issues.

Installation notes:

-Remove all previous versions of the software before installing.

-If you use Media Portal with your GX copy the LibDriverCore.dll from the Program files\Matrix Orbital\GX 3.0\Drivers\Common\GX_driver folder overtop of the one supplied with media portal to make it work with the updated drivers.
